In making its determination, the Zoning Board shall take into consideration the benefit to the applicant if the variance is granted, as weighed against the detriment to the health, safety and welfare of the neighborhood or community by such grant. In making such determination the Board shall consider:

- (1). Whether an undesirable change will be produced in the character of the neighborhood or detriment to nearby properties will be created by the granting of the area variance
- (2). Whether the benefit sought by the applicant can be achieved by some method, feasible for the applicant to pursue, other than an area variance.
- (3). Whether the requested area variance is substantial.
- (4). Whether the proposed variance will have an adverse effect, or impact on the physical or environmental conditions in the neighborhood or district.
- (5). Whether the alleged difficulty was self- created which consideration shall be relevant to the decision of the Zoning Board, but shall not necessarily preclude the granting of the area variance.

CRITERIA FOR GRANTING A USE VARIANCE

- (1). The applicant cannot realize a reasonable return; provide that lack of return is substantial as demonstrated by competent financial evidence.
- (2). That the alleged hardship relating to the property in question is unique, and does not apply to a substantial portion of the district or neighborhood.
